## THE BENEFITS

### COMFORT & SOFTNESS

50% softer on the skin compared to traditional woven gowns.

### MOISTURE WICKING

Moves moisture away from the body for patients to stay cool and dry.

### DIGNITY & COVERAGE

Full wrap around design helps patients maintain independence and privacy.

### EASY TO PROCESS

40% faster dry time than traditional gowns. No ironing or folding required.

### LONG LASTING

Superior polyester fabric that is fade resistant and offers improved stain release.

# SOLUS™

THE PERFECT BALANCE OF COMFORT & DIGNITY

The Solus patient gowns were developed using the latest in textile technology to enhance patient care while maximizing efficiencies and reducing costs.

The gown closures have Konnect™ snaps made of plastic specially designed and recognized for their durability.
