

SWIFT ULTRASLIDE SYSTEM

The *Swift UltraSlide* System is recommended for use wherever manual patient repositioning is indicated.

UltraSlide Bottom Sheet
+
Swift Slider
=
Swift UltraSlide System

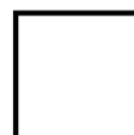

Use with more **dependent, heavier patients** who need frequent repositioning
Not ideal for restless, agitated patients

UltraSlide Bottom Sheet with low friction centre panel. Enables patients to move more easily in bed.

UltraSlide Bottom Sheet Only

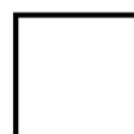

Useful for patients who are **nearly independent** with bed mobility

The **Swift** Slider. No more lifting, just slide your patient into position as needed.

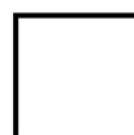

Swift Slider
+
Fitted Jersey Sheet

Only to be used with **light-weight** patients

ALTERNATIVE OPTION:
UltraSlide Bottom Sheet
+
Soaker Pad

Best option for the **restless, agitated**
