

TRUBLISS®

FROM PLASTIC BOTTLES TO PILLOWS

RECYCLING PLASTIC BOTTLES HELPS REDUCE POLLUTION, CONSERVES ENERGY AND PROTECTS THE ENVIRONMENT. DID YOU KNOW THAT IT TAKES APPROXOMITELY 30 - 45 PLASTIC BOTTLES TO PRODUCE ONE OF OUR PILLOWS? HERE'S A BREAKDOWN OF THE RECYCLING PROCESS AND HOW OUR LINE TRUBLISS PILLOWS ARE PRODUCED.

STEP 1

Plastic bottles are brought to the recycling plant

STEP 2

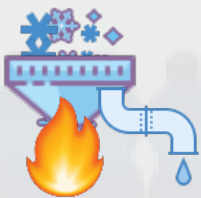

Plastic bottles are sorted and cleaned

STEP 3

Bottles are cut/shredded into flakes, and converted into pellets

STEP 4

Pellets are crushed, melted and liquified

STEP 4

Liquid is processed and turned into polyester fibers

STEP 6

Polyester fibers are then used to fill our TruBliss pillows
